

DANIEL SMITH

Manufacturer of the World's Finest Artists' Paints

MADE IN THE USA SINCE 1976

Meet the Owner of DANIEL SMITH

John Cogley

John Cogley, the owner of **DANIEL SMITH** Artists' Materials, joined the company in the Information Technology Department in 1988.

With almost three decades of leading the company as President, CEO and Owner, John has been the driving force behind making **DANIEL SMITH** Watercolors and other products recognized as the world's best.

Because of John's commitment to innovation and in manufacturing the highest quality paints and other products, artists worldwide can rely on the performance and continuity of **DANIEL SMITH** products year after year.

DANIEL SMITH is the Innovative Manufacturer of Beautiful Watercolors and Oils for Artists Worldwide.

From being the first manufacturer to make the high-performance Quinacridone pigments into artists' paints, to the development of the exciting PrimaTek and Luminescent Watercolors and Oils, Watercolor Grounds, Watercolor

Sticks, artist-quality Water Soluble Oils and inspiring Hand Poured Half Pan sets **DANIEL SMITH** has been the leader in developing creative tools for Artists.

Making beautiful, innovative, and high quality artists paints, which perform consistently from tube to tube, year after year, makes **DANIEL SMITH** products the choice for artists worldwide.

DANIEL SMITH
Luminescent™ Watercolors

Capture Shimmer, Shine, and Light

DANIEL SMITH Luminescent Watercolors are specialty colors with optical effects, found in nature, that regular colors cannot replicate. These colors have an iridescent sheen, shimmer, sparkle or color shift often seen in birds' feathers, insects, fish, flowers, metals and water. The luminous quality of these special watercolors give artists a wider range of color options.

DANIEL SMITH

PrimaTek™ Watercolors

Paint with Earth's Natural Texture

Made in the USA

Easily add Depth to Your Paintings

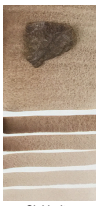

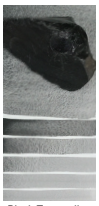

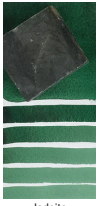

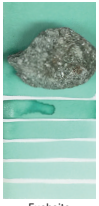

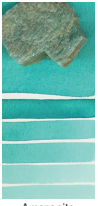

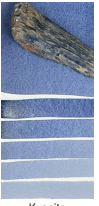

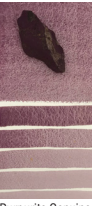

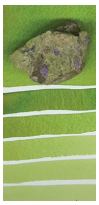

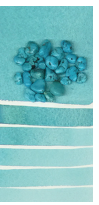

Ground Yourself in Nature

Scan for more info

DANIEL SMITH created the PrimaTek line of paints made from minerals, some semi-precious, beginning in 1998 with a cache of Lapis Lazuli. **DANIEL SMITH** has a mineralogist who sources minerals which **DANIEL SMITH** processes into pigment, then mills it into watercolor. PrimaTeks express themselves with gorgeous granulation giving a sense of movement and depth that some artists have described as “magical”.

45 Colors Available As Individual Open Stock Half Pans

DANIEL SMITH EXTRA FINE™ GOUACHE

DANIEL SMITH Extra Fine™ GOUACHE is a professional artist grade water media that produces an opaque matte finish. Made with the same high-quality pigments and gum arabic as **DANIEL SMITH Extra Fine™ Watercolors**, **DANIEL SMITH Extra Fine™ GOUACHE** is uniquely formulated with higher pigment loads to achieve density and opacity without adding whites or other fillers.

Whether your painting style is abstract, representational, illustrative or figurative, you'll enjoy the creative versatility of **GOUACHE**. Apply it as mass tone straight from the tube to get rich, full-bodied solids with single brush strokes. Temper colors smoothly with water to create softer lines and hazy layers. Mix and blend new shades to customize your palette. You can even scrape into it or build up light texture with mark-making tools.

Use **DANIEL SMITH Extra Fine™ GOUACHE** alone or to accent your watercolor paintings with velvety shadows or bold pops of color. Try it with a wider variety of brushes on either light or dark surfaces – explore a whole new world of artistic expression!

Scan for more info

- 22 richly saturated colors; 17 are single pigments
- Exceptional lightfastness and pure, natural opacity
- Full range of staining and lifting qualities
- Rewets, dilutes and cleans up easily with water
- Available in 15ml tubes; add colors to empty half-pans for portability
