DANIEL SMITH 4th Paint Rack Assembly Instructions For Watercolor Center

FOURTH RACK SHELF LAYOUT

The fourth rack has a different shelf layout than the previous three racks, in order to accommodate all of the included Watercolor support products.

Two shelves are provided for hanging the additional Watercolor tubes, two additional shelves are provided to support the Watercolor Grounds and Masking Fluid, as seen in the image.

Your Watercolor Stick Display sits at the bottom of the fourth rack, with the included Stick Sign taped to the rack.

DANIEL SMITH
Half Pan Assortment- list assortment sku number

Show Each of the components

- 1 pegboard
- 45 peg hooks
- 45 Reorder Card
- 1 Header Card
- 12 Pegboard guides

Steps to Assemble

Build the wood rack following the listed instructions. You will not be using the included pins as there are no shelves. The product hanging method is the white pegboard included.

1. Lay out side panels on a flat surface, holes facing up.
2. Insert posts into designated holes by screwing in with Phillips screwdriver.
3. Insert dowels into designated holes.
4. Insert back panels onto posts and dowels at top and bottom of side panels.
5. Insert cams into holes back panels, turning them so they tighten onto posts.
6. Fold a watercolor brochure in 1/2- this will become your ruler. Take the "ruler" and place it flat at the top edge of the inside front side panel.
7. Press on 1 of the pegboard guides. Repeat, pressing on a guide at the mid and bottom on the side panel. Repeat steps 1-3 on the other inside side panel. Now you will be ready to place the peg board against the guides gently.
8. Repeat the same in the front of the peg board, this creates a channel that holds in the pegboard in place.

Please note -if you pick up the rack with the pegboard inserted it will slide out. To move the rack you will need to slide out the pegboard.
